

# Elastolabo®

## Stretch Marks and Scars

### Instructions for use

#### INTENDED USE

You may already have used Elastolabo to reduce your risk of skin tears during childbirth. Now you can use the very same product for stretch marks or scars.

Elastolabo is a unique skin-elasticising treatment with Elastocell®. Regular massage with Elastolabo has been clinically proven to increase the extensibility and elasticity of skin and tissues, making them more supple.

Elastolabo can now also be used on damaged skin. It doesn't just improve skin appearance, it can actually help make scars and stretch marks smoother, thinner and more supple.

#### INSTRUCTIONS FOR USE

Wash your hands and apply sufficient Elastolabo to cover the area to be massaged. Gently massage the area for five minutes, twice a day, using your fingers. For best results use every day for at least eight weeks. Results will vary from person to person.

If you want to use Elastolabo to protect your skin during childbirth see separate instructions for antenatal perineal massage.

Only use on intact skin. Do not use on open or recent wounds.

If you are treating perineal scar tissue from a previous birth then try to avoid your urinary opening (urethra) during the massage.

#### COMPOSITION

Polyglyceryl-3 Beeswax, Prunus amygdalus var. dulcis oil (sweet almond oil), Citric acid, Ascorbyl Palmitate, Tocopherol (Vitamin E), Lecithin, Petrolatum, Hydrogenated Castor Oil, Silica, Lysine Carboxymethyl Cysteinate (Elastocell®), Paraffinum Liquidum

#### CONTRA-INDICATIONS

Do not use Elastolabo if you are hypersensitive to any component in the product.

#### WARNINGS

Only use on intact skin.

Do not use on open or recent wounds.

Keep out of the sight and reach of children.

Store at 15-30°C.

Do not swallow.

#### OTHER

Non irritant, non sensitising formulation.

Dermatologically and gynaecologically tested.

Fragrance free.

Latex free.

If you are unsure about using Elastolabo or have other concerns please discuss them with your healthcare professional or doctor before using Elastolabo.
